## EINLEITUNG / INTRODUCTION

Explain the reader what he/she should expect from your theses.

## RELATED WORK

You may not be the very first one who writes about this particular theme. Explain what others did and where you will continue. Use some citations to the work so everyone knows what you are talking about [Knuth 1976].

You may not be the very first one who writes about this particular theme. Explain what others did and where you will continue. Use some citations to the work so everyone knows what you are talking about [Knuth 1976].

### 3.1 CITATIONS

Citations The in-text citation style is as follows: For parenthetical citations we enclose the last name of the first author and year of publication, thus: [Knuth 1976]; when there are two authors, both last names and the year of publication are included [Smith and Miller 2001b]; when there are more than two authors, we cite the last name of the first author followed by an "et al."[Cormen et al. 2001]. Sequential parenthetical citations are enclosed in square brackets and separated by semi-colons, thus [Knuth 1976; Smith and Miller 2001b]. When a citation is part of a sentence, the name of the author is NOT enclosed in brackets, but the year is: "So we see that Knuth [1976] . . . "

When an author has more than one article published in the same year, the citation becomes [Smith and Miller 2001b] and [Smith and Miller 2001a]. (Source: http://www.acm.org/publications/authors/reference-formatting)

# USED HARDWARE AND SOFTWARE OR YOUR SELF-BUILD PROTOTYPE

Explain the stuff you used. Maybe you have used a special API or UML for your design process. UML is often used in the software architecture design process. If there are very important points in your code you could provide them as listing as seen in Listing 1 or attatch them as appendix.

## 4.1 MY VERY SPECIAL PROTOTYPE

Explain your one and only device

### 4.1.1 *Device functions*

is it able to roast a chicken while scanning a book for new content?

### 4.1.2 *Build Process*

Document the build procedure. Include some photos like Abbildung 2.

USER STUDY TASKS

If you used some tasks over multiple studies or experiments it might be useful to describe them in a seperate chapter.

# 6

## USER STUDY

Describe how you tested your invention with other participants than yourself in your dark lab. Use some tables to present your result. In Tabelle 1 an example is given.

| LABITUR BONORUM PRI NO | QUE VISTA | HUMAN |
| --- | --- | --- |
| fastidii ea ius | germano | demonstratea |

# 7

## RESULTS

Now everybody excitedly waits for your brand new findings and results.

# 8

## FUTURE WORK

This chapter should contain some text about what could be done by you if you had more time or by anybody else. Some hints could be given about interesting details that may be interestig for further investigation.
